Cary Knight
Sales Manager
Deer Valley Lumber
2221 W. Deer Valley Rd
Phoenix AZ 85027

Dear Mr. Cary Knight:

We are in the process of incorporating Leed for Homes into our building practices. To comply with the rating system, our preference is to purchase products that contain tropical wood only if they are certified according to the guidelines of the Forest Stewardship Council (FSC). Please provide the manufacturing country of each product you expect to supply to us. Also please provide a list of FSC-certified products you can supply.

Sincerely,

Paul Murphy

Re.: Lumber and plywood and or OSB

Deer Valley Lumber has been in operation as a full service lumber yard since 1978. Since 2006, all of the lumber, plywood, and OSB we have inventoried and shipped has been manufactured in the United States or Canada. The same holds true for our current inventory of lumber, plywood, and OSB and for the foreseeable future.

THANKS,

CARY KNIGHT

James Ball

Per your request I contacted the manufacturer of the cabinets provided to you, by me and received the following information.

Woodmont produces KCMA certified products and for them to achieve this, all timber has to be from Certified Sustainable forests. Their wood supplies come from either North America or China and meet these requirements.

If I can help you with anything else let me know.

Respectfully,

Dwight H. Means
